PROFILE

Aspiring Junior Data Analyst with a strong foundation in Mathematical Sciences and hands-on experience in SQL, Excel, and Power BI. Completed multiple end-to-end projects analysing structured datasets to identify trends, evaluate performance, and support business decision-making. Skilled in data cleaning, exploratory analysis, and building insight-driven dashboards. Comfortable communicating findings to both technical and non-technical stakeholders. Familiar with data governance and ethical data handling practices (POPIA/GDPR) within analytical workflows. Focused on delivering value through data in a remote, self-directed environment.

TECHNICAL SKILLS

Data Analysis & BI: Microsoft Power BI (Dashboards, KPI Cards, Slicers), Advanced Excel (Pivot Tables, XLOOKUP, Charts, Dashboards), Google Sheets

SQL: Databricks SQL — CTEs, Views, Joins, Date Functions, Aggregations

Python: Pandas, NumPy (in progress — Witle Academy Bootcamp)

Data Engineering: ETL Processes, Data Cleaning & Quality Assurance, Dataset Merging & Joins, Automated Reporting

Analytical Logic: KPI Development, Trend Analysis, Customer Segmentation, Sales Funnel Analysis, Revenue Analysis

Documentation & Reporting: Data Storytelling, Stakeholder Reporting, GitHub (README Documentation), draw.io (ERDs, Flowcharts)

PERSONAL PROJECTS

E-Commerce Sales Funnel Analysis | Databricks SQL & Power BI

02/2026 – 03/2026

Funnel Optimisation: Identified a 16.5% page-view-to-cart drop-off as the primary conversion bottleneck across 5,000+ records, presenting findings in a Power BI dashboard for stakeholder review.

Revenue Insight: Quantified R88,000 total revenue over 35 days, with an average order value of R106.51 and R17.60 revenue per visitor.

Traffic Source Analysis: Organic search was the top channel with 2,038 views and 204 purchases, outperforming paid ads and email combined.

Coffee Orders Analysis | Excel

03/2026 – 04/2026

Geographic Segmentation: Analysed sales across 3 countries (2019–2022), revealing the US as the dominant market at 78.96% of total revenue.

Customer Analysis: Ranked Top 5 customers by sales value to support targeted loyalty and retention strategies.

Automated Reporting: Built a dynamic self-service Excel dashboard with slicers for country, loyalty card, roast type, and date — eliminating manual report extraction for end users.

EDUCATION

BSc Mathematical Sciences | Sefako Makgatho Health Sciences University, Pretoria

01/2025 – Present

Relevant courses: Computer Science, Statistics, Applied Mathematics, Mathematics

Data Analytics Bootcamp | Witle Academy

01/2026 – Present

Courses: Excel, SQL, Python (Pandas, NumPy), Power BI, Insight Presentation, Data Modelling

WORK EXPERIENCE

E-Hailing Driver | Bolt & Uber, Pretoria

11/2022 – 02/2025

– Managed daily transport operations while maintaining a high driver rating through clear communication with diverse stakeholders, ensuring consistent service quality and issue resolution.

Stock Packer | Sibanyoni Hardware, Kwamhlanga

11/2018 – 01/2020

– Supported daily store operations in a local hardware and building materials retailer.
