

Tebogo Lawrence Makhafola

Junior Data Analyst

Pretoria, South Africa | 072 200 8937 | lawrencegivenchy@yahoo.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Junior Data Analyst with a foundation in Mathematical Sciences and practical experience across SQL (Databricks), Excel, and Power BI. Completed multiple end-to-end projects analysing structured datasets to identify trends, evaluate performance, and support data-driven business decisions. Experienced in data cleaning, exploratory analysis, data visualization, DAX measure development, and building insight-driven dashboards and reports for stakeholder decision-making. Focused on developing job-ready analytical skills within the Retail and Financial Services sectors.

TECHNICAL SKILLS

- Advanced Excel — Pivot Tables, XLOOKUP, INDEX/MATCH, Charts, Interactive Dashboards
 - Analytical Logic — KPI Development, Trend Analysis, Customer Segmentation, Revenue & Profitability Analysis
 - Data Cleaning & Preparation – Handling missing values, outlier detection, data validation
 - Databricks SQL — CTEs, Persistent Views, Window Functions, Joins, Date Functions, Aggregations
 - Documentation — Data Storytelling, GitHub README Documentation, draw.io (ERDs, Flowcharts)
 - Microsoft Power BI — Dashboards, KPI Cards, Slicers, Page Navigation, DAX Measures for Business Intelligence
-

PERSONAL PROJECTS

Loan Default Risk Analysis | SQL (Databricks), Power BI, Excel | GitHub 06/2026

- Cleaned 148,670 raw loan records after Excel crashed at 148K rows; rebuilt pipeline in Databricks SQL with median imputation and outlier removal, reducing processing time from timeout to <5 seconds
- Flagged 173 records with Unknown Age/Gender showing 100% default rate as potential fraud/data corruption; excluded from rate calculations but retained for investigation
- Engineered income quartiles, credit score bins, and region-income interaction matrix using NTILE and CASE statements.
- Identified 2.66x risk multiplier: North-East low-income borrowers default at 45.2% vs North high-income at 17.0%
- Built 2 Power BI dashboards with colorblind-accessible purple-teal palette (8% population consideration)
- Delivered pricing recommendations: 1.5–2.5% premium for Type 2 loans; geographic risk-adjustment for North-East region.
- Outcome: 129,950 clean records analysed; overall default rate 24.47%; 9 SQL queries documented with business recommendations.

Walmart Retail Performance Analysis | Excel, Databricks SQL & Power BI 05/2026

- Cleaned and validated 5,000 transactions across 28 features in Excel and Databricks SQL, confirming 0 duplicate transaction IDs and 0 null values across all columns
- Built a 4-page interactive Power BI application (Sales Overview, Customer & Loyalty, Operations & Inventory, Executive Summary) delivering stakeholder-facing performance reporting
- Identified a 51.86% stockout rate resulting in \$8.01M in at-risk revenue, tracing the cause to warehouse-to-shelf execution gaps rather than forecasting error.
- Uncovered a loyalty-tier inefficiency: Bronze customers hold the highest average income (\$70,932) yet remain in the lowest loyalty tier, unexploited for upsell.
- Flagged a data governance issue — 1,794 transactions marked "Promoted" with no recorded promotion type — and recommended upstream system fixes.
- Delivered 5 prioritized business recommendations covering replenishment strategy, loyalty upgrades, and promotional optimization; Los Angeles identified as top-performing store at \$3.3M revenue.

Nova Retail Group — Sales Performance Analysis | Databricks SQL & Power BI

04/2026

- End-to-End Analysis: Built 15 permanent Databricks SQL views across 4 tiers — basic queries, intermediate joins, advanced window functions, and business intelligence questions — across 2,500 orders spanning 2023 and 2024.
- Dashboard: Developed a 4-page interactive Power BI dashboard with slicers, KPI cards, and navigation covering Sales Overview, Customer & Channel Analysis, Products & Profitability, and Customer Satisfaction.
- Key Findings: Identified 9.63% YoY revenue growth; Electronics drives 74% of R16.88M total revenue; Online channel outperforms Store by 2x; Home Appliances carries the highest profit margin despite being second in revenue.

E-Commerce Sales Performance Analysis | Excel, Databricks SQL & Power BI

01/2026 – 02/2026

- Data Cleaning: Resolved formatting issues, missing values, and inconsistent dates across a raw ecommerce dataset in Excel before loading into Databricks.
- SQL Analysis: Wrote 7 structured SQL queries covering revenue by category, cancellation rates, and order trends.
- Dashboard: Built a Power BI dashboard with data visualization covering revenue by category, payment method, monthly trends, and top products or customers, delivering stakeholder facing sales and cancellation reporting.
- Key Finding: Identified a 15.46% cancellation rate; Books emerged as the top revenue-generating category.

EDUCATION

BSc Mathematical Sciences | Sefako Makgatho Health Sciences University (MEDUNSA), Pretoria

01/2025 – Present

- Relevant courses: Computer Science, Statistics, Applied Mathematics, Mathematics

Data Analytics Bootcamp | Witle Academy

01/2026 – Present

- Courses: Excel, SQL, Python, Power BI, Insight Presentation and Data Modelling

CERTIFICATIONS:

- Databricks Fundamentals (Academy Accreditation) – Credential ID: 181390945 05/2026
- Introduction to Data Science – Cisco Networking Academy 05/2026

PROJECT-BASED EXPERIENCE

Junior Data Analyst | Independent Projects / Self-Directed Portfolio

01/2026 – Present

- Delivered 4+ end-to-end data analysis projects across Financial Services and Retail sectors, covering data cleaning, SQL pipeline development, and interactive Power BI and Excel dashboard design
- Built persistent SQL views, engineered KPIs, and produced business recommendations from raw structured datasets exceeding 148,000 records.
- Applied DAX measure development, window functions, and customer segmentation techniques to surface actionable business insights

ADDITIONAL EXPERIENCE

- E-Hailing Driver | Bolt & Uber, Pretoria 11/2022 – 02/2025
- Retail Assistant | Sibanyoni Hardware, Kwamhlanga 11/2018 – 01/2020
